

00495 Stain Cleaner Strong Type

All you need to do is spray and wipe it off. The white powder will not remain on the surface and rewiping is NOT necessary. It chemically breaks down and gets rid of stubborn dirt which normal car shampoo cannot. Abrasive compounds are NOT included, so it will not damage your car paint. The fresh scent of grapefruit prevents bad odor during the process.

Directions

*Remove dirt from the car in advance.

1. Shake the bottle well.
2. Turn the nozzle to <ON>, and spray it on the surface.
3. Wipe it off with a dry clean cloth.

00491 Fukupika Stain Cleaner

By just wiping, newly developed strong detergent component sinks into the stubborn dirt, which normal car washes cannot, and removes it with the mesh sheet, restoring the dull car body beautifully. The dirt taken from the surface is absorbed into the sheet. This also prevents readhesion of the dirt and damage from scratches.

Directions

1. Take out one sheet from the package.

2. Fold it in four and wipe it as you spread the liquid onto the surface.
3. If the sheet gets dry, use a clear surface.

00507 Stain Cleaner Tube Type

By just applying it on, it removes stubborn dirt which normal shampoo cannot, at the same time as the wax coating is done. Super micro powder gets rid of dirt from transparent parts made of resin and around door handles. You can use it all up because of the tube-type cleaner.

Directions

*Remove dirt from the in advance.

1. Put the liquid on a dry clean towel.
 2. Spread it lightly on the towel, and then apply it on the surface.
- *If the towel gets dirty, use another clean surface.
