

**09130 Blade Reviver**

Just by applying on rubber of the wiper blades, it fills in scratches on rubber and stops noisy wiper operation as well as makes it sweep the windshield clean.

**Directions**

\*Remove dust or dirt on rubber of the wiper blades.

1. Shake the bottle well, put the liquid on the brush on cap, and then apply it evenly on both sides of rubber parts.

\*Do not apply it too much!

2. Wipe off 2-3 times with a clean, dry and soft cloth to spread the liquid evenly.

Afterward, dry it for more than 30 minutes, and set it up.

\*Do not turn on the wipers for 2 hours after applying.

\*Reapply it, if the effect is not seen clearly.

**08072 Wiper Blade Repair Paint**

This is a wiper repairing pen that gets rid of rust and thinning paint mark with a simple application.

The color matches wiper's, and virtually no dripping.

2 way types of pen, bold and flat point type and extra-fine point type, help you repair it easily without unevenness.

**Directions**

1. Shake well with the cap on

2. Take off the cap and slowly press it onto a cardboard a couple times until the paint comes out.

3. Start painting after testing on cardboard.
