

09122 Water Proof Abrasive Paper**S**

Water Proof Abrasive Paper removes rust and pretreats the surface before painting. This set includes 2 sheets each of 150-grit (coarse file), 320-grit (second-cut file) and 600-grit (smooth file).

Directions

- * Apply onto the surface, wetting the area that will be polished.
- * Continue to evenly use a clear surface.
- * Do not polish in a circular pattern.
- * Use each paper as needed.

09118 Sanding Mesh Sheet

The mesh structure prevents the sandpaper from being clogged while polishing with or without water.

Each sandpaper has a different color and number of grits, and so it prevents you from using it in the wrong order. Furthermore, this paper is very durable which allows you to use both sides.

Directions

- * Polish with this and use each paper as needed.

09219 Sanding Cube

By just using this cube in the right order, the surface preparations will be done, because the 4 different sized grids are arranged on each of the 4 aspects. Also, instructions and grid sizes are printed on each aspect, which allows beginners to use it with ease. Furthermore, you can wipe off water drops with it.

Directions

- * Apply onto the surface, wetting the area that will be polished.
- * Change the aspect as needed, following the instructions.
