

**20526 Window Cleaner -Long Lasting Protection-**

By just spraying and lightly wiping off our Window Cleaner -Long Lasting Protection-, you can clearly remove stains, dirt, water spots and more. At the same time, this product also creates water-repellent coating which prevents dirt and debris from sticking to the window's surface while also maintaining its beautiful shine.

**Directions**

1. Shake the bottle well and turn the nozzle to <ON>.
2. Spray it approximately 20cm away from the glass and wipe it off with a dry towel.

\* When the desired application area is at your eye-level, please ensure to use a towel to apply product to surface rather than spraying directly.

\* If the fluid gets applied to any unwanted area, be sure to wipe it off immediately.

**Control No.****JAN code****20527 Leather Surface Cleaner -Durable Rich Texture**

Leather Surface Cleaner -Durable Rich Texture Maintenance- formula is made up of mild cleaning components that will not damage leather surfaces, yet will remove dirt and stains completely from them. Leather Surface Cleaner also restores the original texture of the leather while also preventing dirt and stains from sticking to the surface. Furthermore, it adds an anti-bacterial and mold-resistant coating blended with mink oil, resulting in a beautifully maintained and newly restored finish.

**Directions**

1. Shake the bottle well and turn the nozzle to <ON>.
  2. Spray onto a soft towel and wipe softly on leather without applying too much.
- \* If any streaks or unevenness remains on the leather, be sure to wipe it off with another towel to finish up.

**Control No.****JAN code****20528 Cleaner & Wax for Wood Floors - Long Lasting Gloss-**

Not only does the cleaning component blending orange oil cleanly remove dirt, but it also allows you to use it comfortably with its fresh scent. Rewiping is NOT necessary. You can finish quickly and it is very convenient. It protects the floor from dirt and scratches and makes it hard to slip after use.

**Directions**

1. Turn the stopper up and spray it directly on the floor.
2. Wipe it off with a dry clean towel spreading it without unevenness immediately.
3. Leave it until it gets dry. (Approximately 5 minutes). Wiping with a dry towel is NOT necessary.

\* In order to prevent the liquid from solidifying, wipe off the nozzle and be sure to seal it with the stopper and then store it after use.

**Control No.****JAN code****20529 Screen Window Cleaner & Coat**

Washing is NOT necessary. By just spraying and wiping off with damp towel, Screen Window Cleaner & Coat can cleanly get rid of even the dead bug sticking to the mesh. It brings out coating effect and maintains it in clean condition. A blended agent can resist substances (the ones which cause allergy) such as pollen adhering to the mesh.

**Directions**

1. Shake the bottle well and turn the nozzle to <SOAP>.
2. Spray it 20cm away from the screen window at 45° against the desired area in order to prevent the liquid from going through the mesh.
3. Wipe it off with a slightly damp towel which has been wrung out, without applying force.

\* When the desired application area is at your eye-level, please ensure to use a towel to apply product to surface rather than spraying directly.
