

20533 Induction Heater

The dual functioning bottle is used for application of this product, and allows you to clean efficiently without your hands becoming soiled. The easy to grip, mouse shaped bottle allows you to apply force easily and finish beautifully even on large surfaces, without creating unevenness. This product includes orange oil and specially-treated abrasive compounds which are softer than the glass top plate, can remove persistent oily dirt or scorched residue.

Directions

- * Make sure that desired area is cooled down.
 - * Remove light dirt which you can wipe off with a towel easily in advance.
1. Shake the bottle well with the cap on.
 2. Take out the cap and the inner transparent cover.
 3. Press the felt side onto the top plate, and rub over the surface, squeezing the bottle to release the fluid out.
 4. Wipe off area completely with a damp towel which has been wrung out to avoid excess water.

20535 Stain Eraser for Natural Tanned Leather**Natural Tanned Leather**

Stain Eraser for Natural Tanned Leather can remove dirt from leather products such as: shoes, bags, belts or jackets. It is as easy as if you were erasing words with an eraser. It does not require you to use water and cleanser, which does not leave any unwanted stains or spots. Includes convenient to carry protection case. If you bring it in your bag, you can use it easily wherever you are and whenever you want.

<Natural Tanned Leather>

Abrasive compounds are not included so there is no damage to the leather surface after unwanted residue is removed. The eraser shavings are splatter-proof and are very soft. We recommend you use this product specifically for white leather where dirt is easily visible.

Directions

1. Rub on the dirty area along with the angle of the eraser. This helps you to rub only the desired area and remove dirt from there.
 2. Remove the eraser's residue.
- * If the eraser gets rounded off, cut it to make a new angle.

20537 Leather Care Lotion

Leather Care Lotion is a formula of premium natural carnauba, a state-of-the-art bio material squalane and marine collagen immensely. In addition to cleaning the leather, creating gloss, and repelling water and dirt, it will achieve a nutrition complement effect at high levels. The lotion is water based and neutral, so there is hardly any damage to leather and thread, making this a safe product. You can use the lotion by one drop at a time, and it prevents spots or unevenness caused by applying too much. Includes domestically produced high class cloth which is washable and you can use repeatedly.

Directions

- * If the leather is wet, use the lotion only after leather has become dry.
 - * Remove dust, sand and any other unwanted residue with the brush in advance.
1. Shake the bottle, and put a moderate amount of the lotion on the included cloth and spread it on leather evenly.
 2. Polish and finish with the clean part of the cloth. The result achieves an amazing shine and rich texture.

20534 Shaver Cleaner

Both fine bubbles and powerful cleanser comprise the surfaces of razors allowing for efficient removal of beard residue and skin oil. A special blend of anti-bacterial agents maintain a sterile, fresh interior of the shaver and eliminate bad odors with a fresh minty scent. Includes a convenient mini brush which helps you clean out any sticking beard residue. You can also use with a T-shaped shaver and shavers for ladies.

Directions

<Electric Shaver>

1. Lift shaver's head frame off, and press pump to allow soap to cover the entire inside of the frame.
2. Put the frame back on, and turn on the shaver for approximately 10-20 seconds to wash the inside.
3. Power off and lift frame off, and rinse the bubbles out well.
4. Wipe off any remaining water with a clean towel and dry.

*If there is still hair remaining, get rid of it with the included mini brush.

<T-shaped shavers>

1. Hold the T-shaped shaver and cover the entire razor with soap by pressing the pump to dispense soap.
2. Cleansing bubbles will surround razor blades and lift dirt.
3. Rinse the bubbles well.
4. Wipe off any remaining water with a clean towel and dry.

*If there is still hair remaining, get rid of it with the included mini brush.

20516 Tile Grout

Tile Grout is a paste type and easy to use. It can make the tile exclusively white and clear. It is also mold resistant, which prevents tiles from deteriorating or altered color caused by exposure to mold for long periods of time.

Directions

1. Remove dirt, oil and extra residue from desired area and dry completely.
 2. Apply paste overlapping slightly along the tiles, pressing softly, and press with spatula to touch up areas as needed. We recommend you use the curved part of the spatula along the tile as to fill it evenly.
 3. Stroke the tile until flattened with a damp towel or sponge before it dries. Wipe off unwanted residue as needed.
 4. Approximately one hour after drying, finish up by wiping off unwanted residue on the other areas completely using a damp cloth.
- * Do not get the applied area wet until it completely hardens (approximate time: 24 hours).
* Do not use on areas such as bath or bathroom floors that are constantly wet.

20547 Magical Mirror Polish

By just rubbing on a mirror with water, this pad type cleaner removes scaly spot from the bathroom mirror's surface. The pad is designed using artificial diamonds and has a sufficient cushioning capability to prevents mirrors from damage and scratches (PAT.PEND.). The artificial diamonds are dispersed throughout the surface of the pad and also inside, allowing you to use it repeatedly until the pink surfaces can no longer be used.

Directions

1. Remove dirt and other unwanted residue from the surface in advance.
2. Rub softly on the mirror with water in a crisscross pattern, rather than circular.
3. After use, wash it well, wipe off water drops, dry it and store.
