20176 Reusable Antifog Cloth for Glasses

Just wipe your fogged up glasses with this dry cloth, to instantly clean them and prevent fogging to preserve excellent visibility in all conditions. The packet contains 3 cloths, each of which may be used around 15 times. Suitable for all kinds of eyewear.

Directions:

If the lens is not foggy, breathe on it to fog the lens. Lens must be foggy to activate anti-fog effect. Wipe the lens gently with the cloth for around 10 seconds, wiping fog from every part of the lens. Ensure the lens and cloth are free from grit or sand before use. If lens continues to fog, breathe on the lens to fog it and wipe again.

20685 CLEAQUA ANTIFOG GEL for Goggles

Stops fogging in swimming goggles, with a simple application: just spread on the lenses, and rinse with water! The double effects of ionic polymers and organic surfactant provide highly durable vision improvement underwater. Applied like lip-balm, it's easy, clean, and hygienic, being tested for safety with skin and eye contact. (Complete lack of irritation cannot be guaranteed).

Directions:

Use before wearing goggles.

1. Put one drop of liquid (about 5mm across) onto the inside of the lens.
2. Use the applicator or finger to spread evenly across the surface.
3. Wash with tap water, until the surface is smooth. Shake out all excess water before wearing the goggles.

NOTES:

Wash hands with soap after use.

To avoid scratching, do not scrub too hard.

If too much product remains, it may impair vision, so be sure to rinse thoroughly.

Be sure to remove any dust, sand, or other contaminants before application,

Rinsing with seawater may cause clouding.

20681 SPORTS POWER RAIN REPELLENT 'RainHopper'

Just spray onto the lenses and let dry to create an ultrahydrophobic coating... for sport eyewear!

By creating a nano-scale layer of silicate crystals, this product completely prevents liquids, such as rain, sweat, seawater, etc., from remaining the surface, preserving perfect visibility! It makes sporting activities more enjoyable, allowing you to reach your full potential!

Whether you are running, jogging, fishing, cycling, golfing, or enjoying marine sports, this coating is perfect for your eyewear.

Compatible with hydrophobic coatings, polarised sunglasses, and prescription (corrective) lenses.

Directions:

Apply at least 10 minutes before use of eyewear.

1. Thoroughly clean and dry the lenses before application.
2. Spray onto lenses from around 2-3 cm away, thoroughly wetting the surface.
3. Place on a tissue etc. to dry for 5-10 minutes. DO NOT WIPE.

Notes:

Do not touch surface after application; the coating will be destroyed.

20686 SPORTS POWER RAIN REPELLENT FILM 'RainHopper STRONG'

This innovated hydrophobic film can be cut to fit any 2D flat/curved eyewear, such as wraparound sports sunglasses or goggles for skiing, snowboarding, etc.

The ultrahydrophobic effect repels rain, spray, sweat, and snow to ensure clear vision and a more enjoyable sports experience.

The film is resistant to friction, giving an expected durability of around 6 months, even with normal handling and storage of the eyewear.

The package includes 3 patterns for cutting the film to match the eyewear, but can also be cut into any shape.

Directions:**FILM APPLICATION**

1. Place face-up on the lens surface, and keep in place with the top sticker.
2. Remove the backing sheet and attach the film to the lens surface. Gently push out any air bubbles with a soft cloth.
3. Remove the top sticker, and then the cover sheet to expose the film surface. NOTE: External reflectivity or the appearance of the lens may be affected.

Notes: Before application, clean lens thoroughly and be sure to work in a low dust environment.
