

02051 New Fabric Seat Cleaner

Combining deep anti-bacterial cleaning ability with deodorizing agents, this aerosol is convenient for cleaning fabric seats, child seats, and floor mats.

Directions:

1. Shake well and spray into the surface from around 20 cm away.
2. Wait 1 - 2 minutes before rubbing with a dry cloth to remove dirt. For particularly stubborn dirt, use the agitator on the cap to create a lather on the fabric, and then wipe down with a wrung-out towel. This may be repeated 2 or 3 times.

02181 Fabric Seat Spot Remover

This unique stain remover kit can remove extremely stubborn stains from seats etc. without damaging the fabric at all. The Spot Remover Liquid can dissolve almost any type of staining substance, and the ultra-dense ultra-absorbent sponge is then used to draw the stain out. Suitable for removing around 30 penny-sized stains.

Directions:

1. First soften the sponge in water, then wring out most of the water from the sponge.
2. Shake well and put around 5 drops of the Liquid onto a surface of the sponge.
3. Press repeatedly onto the fabric surface in a fast tapping motion, spiraling around and inwards from the outside of the stain towards the centre.

02192 ROOMPIA Interior Shampoo

This multi-purpose interior shampoo focusses on ease-of-use and interior comfort. This innovative tool not only removes visible dirt like dust and fingerprints, but also tackles less visible contaminants, such as sweat stains, bacteria, viruses, and odours. It is a new-concept, richly-foaming shampoo that allows thorough cleaning of interior surfaces - even those that cannot be washed with water. Suitable for cleaning a variety of interior parts—including windows, dashboards, and seats—except for genuine leather. NOTE: not tested with all types of microorganisms.

Directions:

NOTE: Shake well before use.

NOTE: If foam remains on nozzle after spraying, wipe off before storage.

On windows, dashboard, handles, seat belts, door edges, etc.:

Spray onto a clean, dry towel and wipe the surface.

When using on electronic devices or switches, make sure to saturate the towel completely with the liquid before use.

Do not spray foam directly towards electronic devices or switches.

On seats:

Spray directly onto the surface and wipe down with a clean, dry towel.

If the dirt is severe, use a damp, wrung-out towel to wipe, and allow the area to dry completely.

If dirt still remains, repeat the process several times.

After use on a child seat, finish by wiping with a damp cloth.

On ceiling and floor mats:

Before using on floor mats, remove any sand, small stones, etc., from the surface.

Spray onto a damp, wrung-out towel, wipe the area, and allow it to dry thoroughly.

02180 Cloth Barrier Fabric Seat Coat

This Fusso fluoropolymer-based cloth protection formula makes interior fabrics both water- and oil-resistant. The high flexibility means the layer stays effective for 3 months of normal use.

Directions:

Note: Use on clean, dry fabric. If temperature is under 10°C, warm up interior with the heater first.

1. Shake well and turn nozzle to 'ON'.
2. Spray over the entire surface (12-15 shots for one seat) from around 20cm away. Use the included sponge to spread around evenly.
3. Leave to dry (summer: 2 hours, winter: 4 hours). In cold conditions, or if the sprayed amount was large, drying may be slow. Use a hairdryer to gently aid drying.

Note: Use repeatedly to enhance the dirt-repellent effect. Recommended use: about once every 3 months.

JAN code**02184 Leather Barrier**

Cleaning and coating in one step to give leather a hydrophobic coating that protects it from dirt and helps it keep its natural gloss, protect your leather upholstery from spillages and stains. The water-based formulation is safe for human contact and has no unpleasant petrochemical smell. One bottle will treat 20 seats.

Directions:

* Before use, check in an inconspicuous area.

1. Shake well, turn the nozzle to 'ON'.
2. Fold the cloth into quarters, exposing the nappy (fluffy) side.
3. Spray directly onto the leather surface from around 10 cm. Around 8 shots for a seat, and 10 for a backrest. Spray onto the nappy side of the cloth to apply to narrow areas (steering wheel, etc.) or when applying to perforated leather.
4. Use a dry part of the nappy side of the cloth to wipe down the surface, and leave to dry for 30 minutes.

* When the desired effect is not achieved, the protective coating may be reinforced by repeated application and drying. We recommend reapplying once every 3 months to maintain optimal protection.

02190 Roompia Panel Clear

Powerfully repellent Fusso-based touchscreen and piano black coating that guards against fingerprints, smudges, makeup, sunscreen, etc. to keep your interior panels looking fresh, lasting for around one month. Not only does it massively reduce smudging, but also makes it so easy to wipe off any dirt or smudges with just a swipe of a cloth. Also, by enhancing the smoothness of touchscreens, the ease-of-use is also improved. Compatible with touchscreens, interior panels, piano black parts, rear-view mirrors, smartphones, and tablet screens!

Directions:

1. First, clean away smudges, dust, and dirt with the included cloth to get a perfectly clean surface. For electronic devices, shut down before application. Do not scrub aggressively, may cause scratches.

2. Apply a moderate amount of the liquid to the white surface of the included sponge.

Using too much liquid may cause dripping.

3. Completely and evenly spread the liquid over the surface to be treated. If the sponge seems to be drying out, add more liquid.

4. After about 30 minutes, wipe away any unevenness with a tissue. Dry to touch after 30 minutes; complete curing 90+ minutes.

NOTE:

If the desired effect is not achieved, repeat the above steps to layer the coating.

If contact occurs with another surface, wipe off immediately.

Contents can treat a 9 inch (11×20cm) screen around 16 times.

02188 Roompia Wash Mist PLUS

Just spray and wipe to clear away fingerprints, smudges, and dust. Not only that, but Wash Mist PLUS destroys bacteria and viruses, leaving an antimicrobial coating that lasts for ca. 1 week, and reduces the amount of dust absorbed and released by interior fabrics.
Note: not guaranteed to remove 100% of all microorganisms

Directions:
Remove stopper before use.

For seats, interior glass, and floor mats:
Spray onto surface and wipe down with a clean cloth.
For fabric seats, spray liberally (until wet) to ensure maximum antimicrobial and deodorant effect. Wipe and allow to dry.
For dashboards, steering wheels, etc.:
Spray onto a clean cloth and wipe down the surface.

Notes:
After use on child seats, wipe down with water.
Test on an inconspicuous area before use.
Do not use excessive force when wiping.
Do not spray directly onto electronics.

Dirty interior windows cause dangerous poor visibility when driving. This high-performance interior window cloth effectively removes dust, fingerprints, smears, and stains, easily eliminating residue on glass. It is designed to minimise friction and lint, leaving windows clear and transparent, with minimal dragging. It is also suitable for removing fingerprints from screens, glossy panels, and even smartphones.

Directions:

Fold the product to an easy-to-use size, and wipe the surface.

If using with water, wet thoroughly with water and wring out tightly before wiping the surface.

This product can also be used with glass cleaners and similar products. For best results, we recommend using Soft99 brand cleaners.

Sunscreen stains, soil, spilled drinks, etc. can be a difficulty during interior cleaning, as they stubbornly adhere to textured surfaces, such as door panels and leather seats, becoming a pain to remove. This high-performance brush maximizes the effectiveness of interior cleaning formulations. With 12,000 0.045mm ultrafine fibres, this can thoroughly remove dirt trapped in textured surfaces and fine scratches, for a deep, yet gentle clean. The flexible sponge make it easy to use on awkward surfaces, such as handles and knobs. Use together with other Roompia products, such as Interior Shampoo, or Leather Barrier.

Directions:

1. Apply a cleaning solution or water to the brush surface, then gently scrub the surface. Do not use excessive pressure or scrub aggressively, as this may flatten the bristles and reduce cleaning effectiveness.

For best results, we recommend using Soft99 brand cleaners.

2. Wipe down the surface with a clean, dry towel.
