ハイモースコート ジ・エッジ

G'ZOX Hi-MOHS COAT The Edge

An ultra hard dual-layer glass coating, boasting 8 on the Mohs scale, provides excellent protection with the most powerful, durable hydrophobicity in G'ZOX history... and dizzyingly deep gloss! The Base Coat makes use of a powerful polymerisation process to create an ultra hard, highly durable glass barrier. This creates powerful bonds to support the Top Coat, enabling incredible durability for a layer of highly reactive siloxane crystal that provides incredible gloss and hydrophobicity. This amazing dirt-repellent power keeps that special vehicle beautiful!

G'ZOX Burst View

This advanced model of water repellent developed by G'ZOX achieves superior water repellency and durability. Using 3 essential steps of "polishing" => "stabilising" => "coating". The large volume means it has excellent cost performance. All liquids use solvents that comply with the "Organic Solvent Poisoning Prevention Regulations (Organic Regulations)", which contributes to a safer working environment.

G'ZOX Comfort Guard - Fabric Package

The G'ZOX series' first total coating system for interiors uses advanced chemical technology to create a beautiful and comfortable interior space.

The ceiling and floor mat coatings have excellent deodorant, antibacterial, antiviral, and antifungal effects thanks to a newly developed photocatalytic coating to protect the roof and floors, which tend to harbour odours and germs, dramatically improving cleanliness and comfort of the interior of the car.

Another specialised coating has been prepared for seats, which are particularly liable to get dirty. For fabrics, it has a water-repellent and antifouling effect, preventing sweat, crumbs, spilled food, and other stains from penetrating into the fabric sheet fibres, and so maintaining a beautiful and comfortable interior for a longer period of time.

Product code	03730

G'ZOX Comfort Guard - Leather Package

The G'ZOX series' first total coating system for interiors uses advanced chemical technology to create a beautiful and comfortable interior space.

The ceiling and floor mat coatings have excellent deodorant, antibacterial, antiviral, and antifungal effects thanks to a newly developed photocatalytic coating to protect the roof and floors, which tend to harbour odours and germs, dramatically improving cleanliness and comfort of the interior of the car.

A special coating is prepared for the seats that are particularly liable to get dirty in the interior. For leather, it prevents the sticking and penetration of dirt without damaging the colour and texture of the leather, and the beautiful texture lasts for a long time. It also has an anti-slip effect and realizes a more comfortable driving environment.

Another specialised coating has been prepared for seats, which are particularly liable to get dirty. For leather, it prevents the sticking and penetration of dirt without damaging the colour and texture of the leather, preserving the luxurious texture for longer. It also has an anti-slip effect, for a more comfortable driving experience.

G'ZOX Comfort Guard - Combination Package

The G'ZOX series' first total coating system for interiors uses advanced chemical technology to create a beautiful and comfortable interior space.

The ceiling and floor mat coatings have excellent deodorant, antibacterial, antiviral, and antifungal effects thanks to a newly developed photocatalytic coating to protect the roof and floors, which tend to harbour odours and germs, dramatically improving cleanliness and comfort of the interior of the car.

Many recent vehicles feature seats that use both leather, and fabric or Alcantara surfaces. This Combination Package includes coatings for dirt-repellency and durability, optimised for each type of material. Maintain a comfortable driving experience by preserving the beautiful condition of leather-appointed seats.
